

HONORING JOELLE MARTINEZ OF  
THE SANTA FE BOYS AND GIRLS  
CLUB

**HON. TOM UDALL**

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 16, 2001*

Mr. UDALL of New Mexico. Mr. Speaker, for the past 13 years, the Santa Fe Boys and Girls Club on Alto Street has been a source of inspiration for Joelle Martinez. On March 16, 2001, Ms. Martinez was rewarded for her hard work and determination when she was named the Boys and Girls Club Youth of the Year.

The Youth of the Year program serves to recognize outstanding young people for their superior leadership skills, academic achievements, triumph over personal hardships, as outstanding contributions to the community.

Ms. Martinez had to endure a rigorous selection process in which she submitted a packet that included essays regarding her involvement at school, in church, with her family, and at the Boys and Girls Club to show her leadership skills within the community. After her packet was evaluated, seven judges, most of whom were Boys and Girls Club Board of Directors, conducted interviews and selected Ms. Martinez for the award.

Ms. Martinez, a senior at Calvary Chapel Christian Academy, first came to the Boys and Girls Club when she was five years old, and she has actively participated ever since.

Over the years, Ms. Martinez has participated in numerous activities aimed at keeping at-risk students involved in the community and off the streets. She has been involved in basketball, swimming, photography, wrestling, dancing and cheerleading. Today, Ms. Martinez is a staff member of the Boys and Girls Club, working with the children of Santa Fe each day after school.

Ms. Martinez played varsity basketball at Calvary Chapel and was selected to the All-Star team. She is a member of the National Honor Society, successfully maintaining a 3.0 or better grade point average. Recently, Ms. Martinez went on a mission trip to Spain, France and England with Calvary Chapel, and she continues to work with the Keystone Club, a teen organization aimed at philanthropy in the community.

As part of her award, Ms. Martinez received a \$4,000 scholarship to use at the college or university of her choice. She has already made plans for her future, looking at several New Mexico colleges and a few out-of-state Christian schools to continue her education, where she will pursue a degree in either Computer Science or Criminal Justice.

Ms. Martinez is living proof of how the Boys and Girls Clubs of America impact the lives of children in communities throughout the nation. They develop a solid foundation of positive moral and ethical values for our youths. The five Boys and Girls Clubs in Santa Fe County alone have more than 2,500 members and serve more than 55,000 people in the community.

Today, the Boys and Girls Clubs provide children of working parents with after-school alternatives to drugs and violence, yet President Bush's budget cuts funding from these

EXTENSIONS OF REMARKS

programs. His plan would extinguish a flame that has been lighting the County of Santa Fe for more than 60 years, seriously impacting the community. I hope there will be sufficient funding so that future generations have the opportunity to work with mentors like Ms. Martinez, who provide beacons of light that guide the way for other youth across the country.

NATIONAL WOMENS' HEALTH  
WEEK

**HON. CONSTANCE A. MORELLA**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 16, 2001*

Mrs. MORELLA. Mr. Speaker, today I rise to honor National Women's Health Week. I commend all of the women who have worked so hard to improve the health of all women. You are making a difference in the healthcare of American women.

We have much to celebrate, in the past decade, funding for breast and ovarian cancer at the National Cancer Institute has more than quadrupled, and funding for osteoporosis has grown from only two osteoporosis-specific grants in the entire country in the early 1980's to more than \$80 million in osteoporosis-specific research grants today.

However, our job is far from over, we need to protect the work we have done, and more work remains for the 21st Century. Despite great strides on women's health research, we still must be vigilant and must address issues that are not receiving the public attention and research priority that they deserve.

One example is microbicides. Today the United States has the highest incidence of sexually transmitted diseases (STDs) in the industrialized world—15.4 million Americans acquired an STD in 1999 alone. STDs cause serious, costly, even deadly conditions for women and their children, including infertility, pregnancy complications, cervical cancer, infant mortality, and higher risk of contracting HIV.

Microbicides are a potential new class of products that women can use, like today's spermicides, to prevent HIV infection as well as other STDs.

Microbicides have the potential to save billions in health care costs. The total cost to the U.S. economy of STDs, excluding HIV infection, was approximately \$10 billion in 1999 alone. When the cost of sexually transmitted HIV infection is included, that total rises to \$17 billion.

With sufficient investment, a microbicide could be available around the world within five years. Microbicide research and development receives less than 1% of the federal AIDS research budget, and best estimates show that less than half this amount is dedicated directly to product development. Clearly this is not nearly enough to keep pace with the growing STD and HIV epidemics.

Mr. Speaker, because of the need for focuses research on women's health, I have introduced legislation, that can serve as a catalyst for women's health. The "Women's Health Office Act of 2001" H.R. 1784, will provide for permanent authorization for offices of women's

health in five federal agencies: the Department of Health and Human Services (HHS); the Centers for Disease Control and Prevention (CDC); the Agency for Health Care Research and Quality (AHRQ); the Health Resources and Services Administration (HRSA); and the Food and Drug Administration (FDA).

This bill includes authorization for appropriations to ensure that future funding will be adequate to support these offices' missions and programs.

Providing statutory authorization for federal women's health offices is a critical step in ensuring that women's health research continue to receive the attention it requires in the twenty-first century.

I can say without exaggeration that women working together—as patients, lawyers, advocates, medical researchers, and members of Congress—have been a powerful catalyst for the advances we have made in the research and treatment of breast, ovarian, and cervical cancer, osteoporosis, and heart disease.

I look forward to the continuation of our work together and a strong record of high achievements.

I look forward to supporting legislation and programs to address the health needs of our citizens and the fundamental challenges posed by our nation's health care system.

CONGRATULATIONS, CAL DARDEN

**HON. JOHN LEWIS**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 16, 2001*

Mr. LEWIS of Georgia. Mr. Speaker, I rise today to congratulate Calvin "Cal" Darden on his election to the Board of Directors for United Parcel Service. Mr. Darden, senior vice President of all U.S. operations for UPS, is the highest ranking African-American ever to serve at UPS. As a person who has invested a great deal of my life working to break down the racial barriers that divide our society, I commend him for his success. Through the success of Mr. Darden and others like him, we continue our journey toward a truly integrated society, toward what Dr. Martin Luther King, Jr., called "the Beloved Community."

Jim Kelly, the UPS Chairman of the Board, also appreciates the contributions of Cal Darden, albeit for different reasons. "Cal Darden has devoted his professional life to making this company what it is today. It is due in no small measure to his efforts in the arenas of operations and customer service that Fortune Magazine just recognized UPS for the 18th consecutive year as 'America's Most Admired' transportation company."

Cal Darden joined UPS in 1971 as a part-time package handler while attending Canisius College. In 1972, he graduated from college and began his climb up the UPS corporate ladder as he was promoted into management. In addition to his success at UPS, Mr. Darden has been active in the community as a member of the National Urban League's Board of Directors, 100 Black Men of North Metro Atlanta, and his work with the United Way.

Congratulations and best wishes, Cal Darden. Keep your eyes on the prize.
